American Water Works Association

Combined Annual Dinner Meeting Announcement

American Society of Civil Engineers – Hawaii Section | Hawaii Water Environment Association | American Water Works Association – Hawaii Section

Does the City Department of Environmental Services have “Tunnel” Vision?

The City and County of Honolulu is conducting an engineering study to evaluate the use of gravity sewer tunnels to upgrade and improve the major wastewater conveyance infrastructure in the Sand Island Sewer Basin and the hydraulic capacity at the SIWWTP. The gravity sewer tunnel alternative would replace the existing pump stations and force mains wherever it is used in the Sand Island Basin, but does require a new Influent Pump Station at the SIWWTP to raise wastewater flows to the existing SIWWTP Headworks.

Date: **Thursday, August 19, 2010**
